

# JOURNEY WITH HOWARD CHANDLER

*The Mobile App  
For iPhone & iPad  
Launching Spring 2019*

## Story Mode

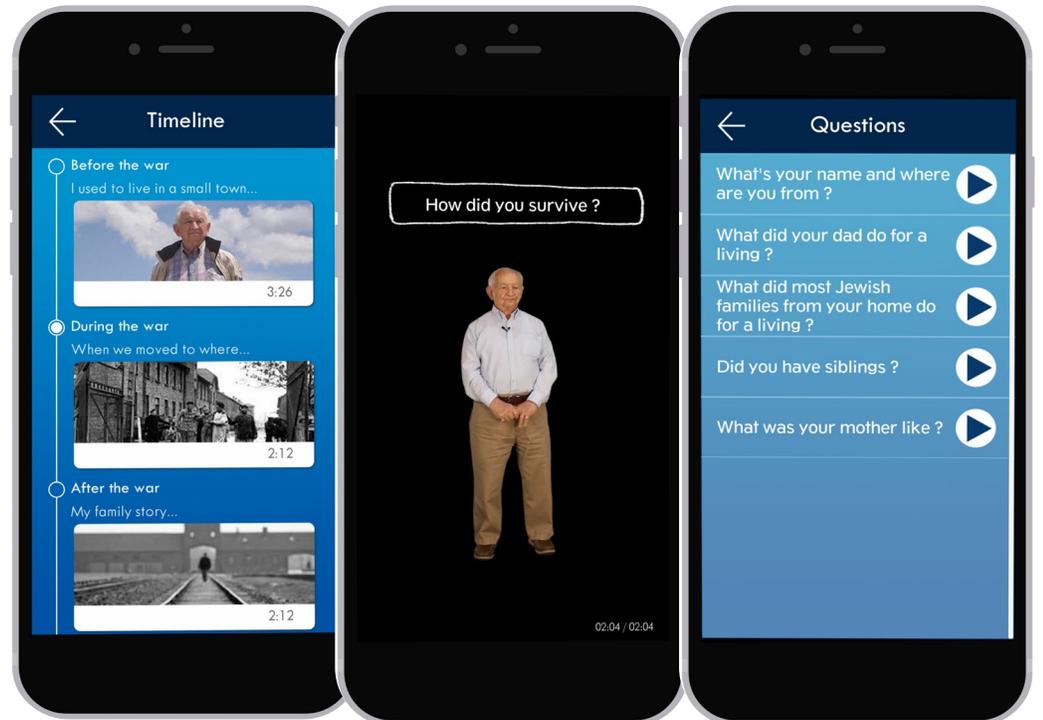

Hear Howard's powerful story in his own words. Interact with him in a conversation-like interface.

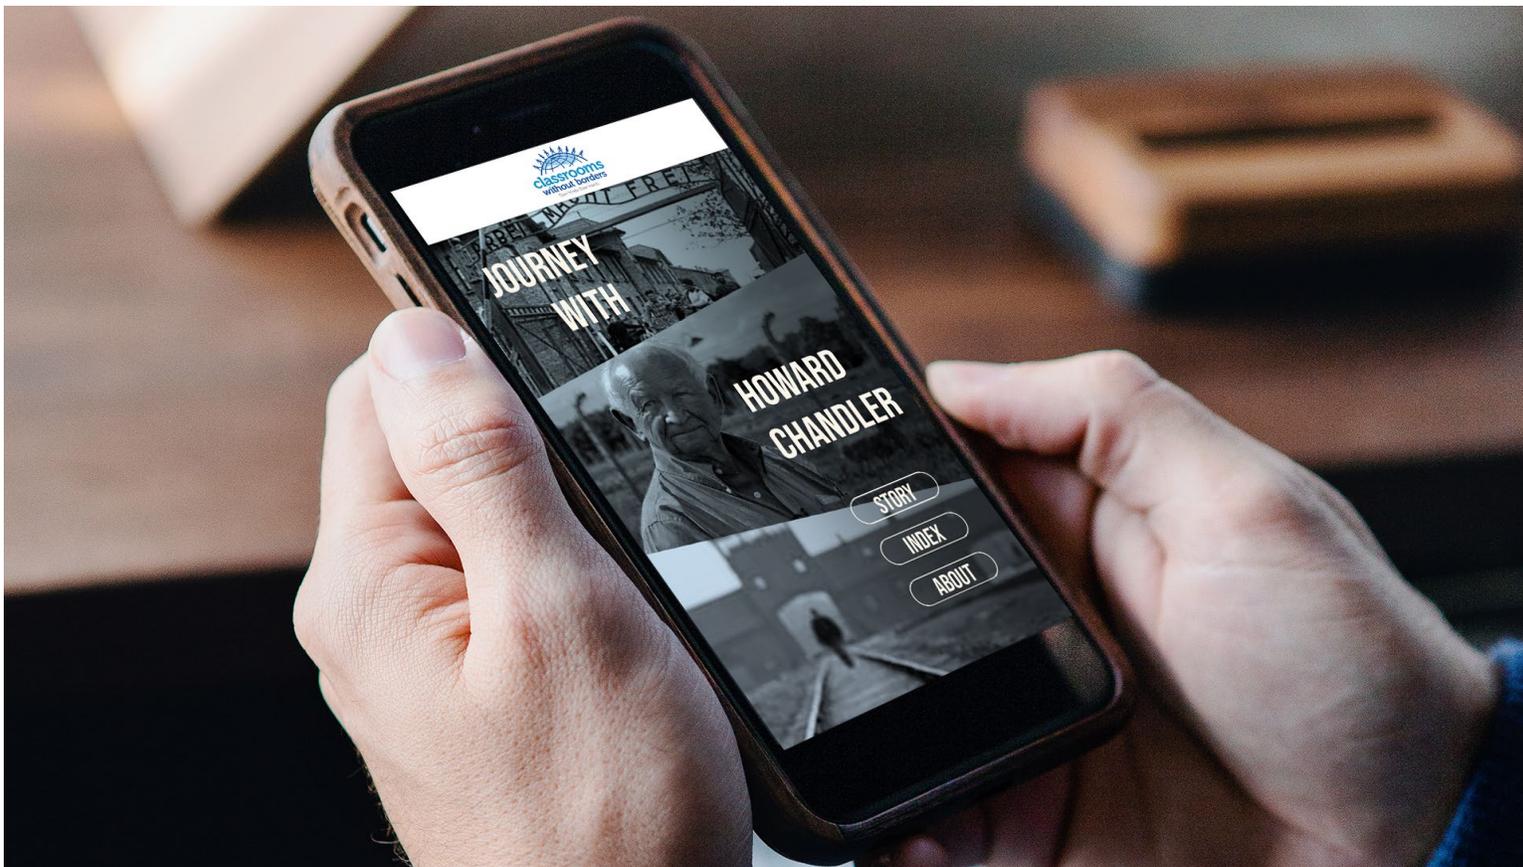

## Index Mode

Users pick which questions to ask Howard, on subjects ranging from his childhood, his time in the camps or his life after the Holocaust.

## In the Field & the Classroom

The app acts as a companion piece for the *Poland Personally* trip, as well as a rich resource in the classroom.

# CLASSROOMS WITHOUT BORDERS

JOURNEY WITH HOWARD CHANDLER: THE MOBILE APP

*Journey with Howard Chandler* is a forthcoming mobile application for iPhone and iPad, that will feature intimate interview footage of Howard as he tells his life story, from childhood, through the Holocaust, and beyond. This experience will capture and preserve the core of what makes CWB's *Poland Personally* trip special: Howard Chandler's incredible story, presence, spirit and passion for Holocaust education.

The app will feature interactive interview footage with Howard, allowing users the ability to ask Howard the questions they want, and hear his firsthand account. Educators and students on the Poland trip will be able to engage virtually with Howard and integrate his story into the greater educational experience provided by CWB while on the trip. In the classroom, teachers will be able to use the app to engage virtually between Howard and their students in an interview-like setting.

The mission of this project is to preserve the incredible, personal and educational impact that Howard Chandler brings to educators, students, and the CWB community for years to come.
